GREAT CURE.

DR. LELAND'S
ANTI-RHEUMATIC BAND

The only known Remedy

FOR

RHEUMATISM,

GOUT, AND

NEURALGIA;

Also a Sure Cure for all

MERCURIAL DISEASES.

Office, 409 Broadway, New York.

G. SMITH & COMPANY, SOLE PROPRIETORS.

DR. LELAND'S ANTI-RHEUMATIC BANDS will be found a perfect, safe, reliable, and effective remedy, *never failing to effect a* PERFECT CURE, even in the *most aggravated forms* of the disease. Moderate cases are cured in a few days, without drugging the system with noxious and poisonous minerals, or scarifying the flesh with blisters.

The medicinal curative properties are contained in a conveniently arranged BAND, which is worn around the body, without injury to the most delicate persons. These ingredients are of a highly AROMATIC and VOLATILE NATURE, AND ARE TAKEN UP BY ABSORPTION THROUGH THE PORES OF THE SKIN, HAVING THUS A DIRECT ACTION UPON THE BLOOD, removing its acrid and acid properties, and restoring it to its normal healthy tone and standard.

DR. LELAND has analyzed and investigated the character of the blood in these diseases, and has compounded a combination of remedies *capable of being readily absorbed*, for the purpose of changing the deleterious character of the blood, and restoring those elements that are deficient.

The curative properties being taken up by ABSORPTION, are CARRIED DIRECTLY INTO THE CIRCULATION without going through the process of digestion, which would tend not only to impair and destroy their remedial properties, but if taken internally in sufficient quantities to produce the desired effect, would tend to derange the digestive organs. A few days' trial of these BANDS will convince the most sceptical of their infallibility in obtaining the end for which they are designed, viz.: EFFECTING A PERFECT CURE, AND RESTORING THE PARTS AFFLICTED TO A HEALTHY CONDITION. Numberless testimonials of their efficacy could be presented, but conscious that wherever tried they will effectually proclaim their own merits, we content ourselves with presenting a few certificates on the last page, more to show the *range* of their curative action than any thing else.

ANTI-RHEUMATIC BAND—G. SMITH & CO., 409 BROADWAY.

RHEUMATISM,

Either chronic or acute, in whatever stage or form it may present itself, readily yields to the powerful curative properties of these BANDS, and generally after a few days' persistence in their use the most confirmed Rheumatic throws away his crutches, and stands erect with healthy limbs and unstiffened joints, the rejuvenated blood courses through the arteries with renewed elasticity, and the rose of health blooms upon the lately sallow and sickly cheek. Rheumatic sufferers are *assured* that this is no typical illusion; **Dr. Leland's Anti-Rheumatic Band** will assuredly prove their sheet-anchor of hope in this distressing and painful malady.

GOUT.

This enemy of the luxurious and epicurean aristocracy has *never* been successfully combated until the discovery of **Dr. Leland's Anti-Rheumatic Bands.** The acrid and acidulous properties of the blood induced by an epicurean diet, and vinous potations, are effectually *counteracted* and *neutralized* by the judicious combination of the remedies contained in these BANDS. The pampered appetite and impaired digestion acquire a new tone and vigor, and the sluggish blood, freed from its impurities, is restored to new life and energy. To all suffering from this disease, we can conscientiously say, that in **Dr. Leland's Bands** they have a *safe* and *effective* remedy, and one that will not interfere with their daily avocations and pleasures.

NEURALGIA.

There is no disease that affects the human organism more painfully than this; having its seat in the nerves themselves, the very centre of sensation, the agony produced is oftentimes almost beyond the powers of human endurance. These diseases of the nerves have their origin in a *diseased state of the blood,* and the only proper remedy consists, not in deadening and stupefying the system with opiates and narcotics, but in *restoring* to the blood its normal properties. This is effected by means of **Dr. Leland's Anti-Rheumatic Band,** which carries *directly* to the blood its lacking constituents, and thereby restoring a healthy action to the diseased nervous system.

MERCURIAL DISEASES.

We desire to call the particular attention of all those suffering from the evil effects of MERCURY to the powerful ANTI-MERCURIAL properties of the valuable remedies contained in **Dr. Leland's Bands.** They completely neutralize the *Mercurial poison,* and expel it from the system. We can confidently assure those whose bones are rotting, and whose bodies are covered with sores, from the abuse of MERCURY, that these BANDS will exercise a *specific* influence in expelling the noxious mineral from the system.

Why, then, will you continue to suffer, when, for the small sum charged for the BAND, you may, instead of the *leprous* and pitiable object, with diseased bones and tottering frame, become what GOD and NATURE intended you to be, A MAN, with health blooming upon your cheek, with an upright frame and healthy organism.

DIRECTIONS FOR USE.—Buckle the Band close around the body, placing the linen side next to the skin. The first application should be for about twelve hours, then remove for the same length of time; again apply for twenty-four hours, and remove as before, allowing it to remain longer each time applied. After the first few applications, the Band may be worn constantly, until the disease is entirely removed. When not in use, keep it inclosed in the case, to exclude the air. The bowels should be kept open with some light laxatives, such as Magnesia or Rhubarb. The body should be kept warm and the feet dry, and exposure and sudden changes avoided.

PRICE, $2, Inclosed in a neat case, and to be had of Druggists generally, or can be sent by mail (postage 20 cents) or express, with full directions for use, to any part of the country, from the principal office, **409 Broadway, New York.**

TESTIMONIALS.

Reading, Pa., May 3, 1859.—For twenty years I have been grievously afflicted with Chronic Rheumatism. Last fall I was recommended by a friend, who had been relieved, to try your Anti-Rheumatic Band. It is now over eight months since I first put it on, and I am happy to state to you that I have not felt a rheumatic pain since the first three weeks of its trial.—C. G. SPAULDING.

Albany, June 10, 1860.—For years past I have been afflicted with hereditary gout. The least cold or dampness of my feet was sure to bring on an attack. I wore your Anti-Rheumatic Band for one month, and since that time have had no further use for it, or any other medicine, though I am constantly exposed to all kinds of weather.—WILSON HARTLEY.

Janesville, Wis., Nov. 16, 1860.—I cannot express what I have suffered for the last two years from Neuralgia. By recommendation, I was induced to try your Anti-Rheumatic Band, and it has either driven out the disease, or it went out of its own accord, soon after I tried it.—EMILY M. BAXTER.

Baltimore, Dec. 19, 1860.—I have been a great sufferer for more than four years, in consequence of using large quantities of Mercury. At times nearly my whole body was covered with sores, and the painfulness of my bones was a sure indication of the approach of a storm, and the least dampness of my feet would lay me up for weeks. I have worn the Band for three months, and am still wearing it, but since the first month, I have been entirely relieved from pain, and the eruptions have completely healed up.—ALANSON T. BAKER.

STEINWAY & SONS,

MANUFACTURERS OF

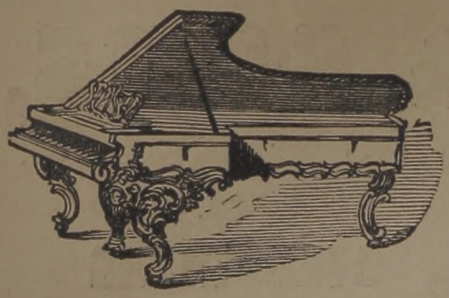
PATENT

OVERSTRUNG

GOLD MEDAL

GRAND, SQUARE, & UPRIGHT

PIANO-FORTES



WAREROOMS:

82 & 84 WALKER STREET, near Broadway.

STEINWAY & SONS' FACTORY, ON FOURTH AVENUE, 52D TO 53D STREETS.

These Pianos received the **FIRST PREMIUMS WHERE and WHENEVER** Exhibited, in competition with the Best Makers of **BOSTON, NEW YORK PHILADELPHIA, and BALTIMORE.**

STEINWAY & SONS'

GRAND AND SQUARE

PIANOS

ARE NOW CONSIDERED THE BEST PIANOS MANUFACTURED.

Amongst the numerous Certificates we select the following:—

GENTLEMEN:—It gives me great pleasure to express my opinion as to the merits of your Grand, as well as Square, Pianos. I have tested and tried the Piano-fortes of nearly all manufacturers, and, although I have found instruments that possess many excellent qualities, yet I never have found any that combine everything which constitutes a Perfect Piano to such a degree as yours. I, therefore, consider *your* Pianos *superior* to any others that I am acquainted with, prefer them for my own use, and recommend them invariably to my friends and the public.

WILLIAM MASON.

To Messrs. STEINWAY & SONS.

NEW YORK, *December 6th*, 1860.

Messrs. STEINWAY & SONS.

GENTLEMEN:—I have now, for several years, so severely tested and tried your *grand* and *square* Pianos, both in public and private, that it becomes my pleasant duty to express my candid opinion about their unquestioned superiority over any other piano with which I am acquainted. Their excellence consists chiefly in the peculiar bell-like quality of the treble, together with an unusual length of vibration, thus far unattained by any other maker. The middle and bass possess that depth and power of tone, which enables the pianist to satisfy every fancy of his imagination. The action (while it is of very easy touch) responds in the promptest manner to any and every demand of the fingers. I have, at different times, expressed my opinion about the Pianos of other well-known makers, but freely and unhesitatingly pronounce your Pianos, both *grand* and *square*, far superior to them all.

GUSTAV SATTER.

NEW YORK, *November 2d*, 1860.

Messrs. STEINWAY & SONS,
No. 82 Walker Street, New York.

GENTLEMEN:—In my extensive travels both in Europe and in this country, I have heard and used Pianos of all celebrated makers, but I have never found any that have given me such entire satisfaction as your instruments, and I would, therefore, recommend them especially to the American public. Wishing you a continuance of that success which has attended your well-directed efforts, I remain, truly yours,

GIORGIO STIGELLI.

NEW YORK, *January*, 1861.

GENTLEMEN:—Having played, both in public and private, on the Pianos of the most celebrated makers in Europe and in this country, I do not hesitate to pronounce your Overstrung Grand and Square Pianos superior to any instruments I have ever played upon.

S. B. MILLS.

Messrs. STEINWAY & SONS.

GENTLEMEN:—The Piano-fortes, both grand and square, manufactured by you, have established for themselves so world-wide a reputation, in a space of time so incredibly short, that it is hardly possible for me to add anything to their just fame; still, it is gratifying to me to say, that for evenness, power, as well as sweetness of tone, elasticity and promptness of touch, and general finish and durability, they far excel all other Pianos with which I am acquainted.

GEO. F. ROOT.

NEW YORK, *January*, 1861.

Messrs. STEINWAYS:—I regard him as a benefactor who builds a good Piano, and I am your beneficiary on that account. Having had one of your instruments for some time, I can be a witness to its admirable qualities in every respect. I am more than satisfied, and if I had to buy another, I should certainly go to your rooms again. It is a pleasure to praise your work.

H. W. BEECHER.

FORCE-PUMPS.

THE AMERICAN PUMP.

THIS IS A DOUBLE-ACTION FORCE-PUMP, without packing, without suction, simple, strong, durable; great leverage, little friction, works in all depths, loses no water, will not rust, will not freeze, works by hand and power, raising from 5 to 60 gallons per minute, according to size; patented April 5, 1859, and in operation in nearly every State in the Union. Warranted to work. Prices from $15 to $60.

"Those who have used it speak well of it."—*N. Y. Observer.*

"It needs no priming, is very simple."—*Life Illus.*

"The labor of working it very trifling.—*N. Y. Christian Advocate and Journal.*

"One man forces water 540 feet, and 97 perpendicular."—*Scientific American.*

"Full confidence can be placed in it."—*Pres. Banner, Pa.*

"We consider it the best we have ever seen."—*Galveston News, Texas.*

"It took the premium at our State Fair."—*Raleigh Register, N. C.*

"We never saw one comparable to this."—*St. Louis Christian Advocate.*

"Brings a continuous stream with little labor."—*Southern Planter, Va.*

"One could force water anywhere to any height."—*Am. Agriculturist.*

"It has been brought to the greatest perfection."—*Newsgiver, Spanish.*

Institution for the Deaf and Dumb,
Washington Heights, N. Y., March 26, 1860.

J. M. EDNEY, ESQ.:—Having had occasion, nearly eight months ago, for a pump differing somewhat from those in ordinary use, after inspecting many kinds I met with your circular, and ordered a No. 2 Pump, the cylinder and piston of brass, the remainder of galvanized iron. It was well fitted up, works easily and successfully, and has thus far required no re-adjustment or attention whatever. Indeed, I regard it as the most durable pump I have seen, and as possessing all the merits you claim for it.

E. B. PEET.

NEW YORK, April 18, 1860.

I hereby certify that a No. 2 American Pump, placed in my reservoir, near King's Bridge, forces water to my house, a distance of 862 feet, at an ele-

vation of 158 feet *perpendicular*, worked either by one or two men, and discharges over five gallons per minute, with ease and regularity.

RATES OF POSTAGE.

NOTICE.

No letters will be sent from this office to places within the United States, *unless the postage is prepaid* by stamps.

Unpaid letters deposited in this office for places within the United States, will be sent to the Dead Letter Office at Washington.

If the postage on a letter is part paid, and it is apparent that the deficiency in the payment was

unintentional, the letter will be charged with the balance of the postage and forwarded pursuant to its address; otherwise it will be sent to the Dead Letter Office.

Stamps and stamped envelopes can be procured at the office of sale, in the second story of the Post-office building; entrance at the east end of the Cedar street front, open from 9 A. M. to 3 P. M., and at the first window from Cedar on Nassau street.

On Letters.

The Inland Postage (which must be pre-paid) for 3,000 miles or under, upon single letters, is 3 cents; double letters twice, and treble letters treble these rates.

Letters for California and Oregon, 10 cents.

Every letter or parcel not exceeding half an ounce in weight, shall be deemed a single letter, and every additional weight of half an ounce, or less, shall be charged with an additional single postage, prepaid by stamps.

City Letters are subject to one cent postage, whether delivered from the office or by the carriers.

Advertised Letters are charged with one cent, in addition to the regular postage.

On Newspapers.

NEWSPAPERS—The postage per quarter on the regular numbers of a newspaper mailed from the office of publication to subscribers anywhere within the United States, is as follows:—On a daily paper, 39 cents; tri-weekly, 19½ cents; semi-weekly, 13 cents; weekly, 6½ cents; semi-monthly, 3 cents; monthly, 1½ cents. Payable quarterly in advance.

TRANSIENT NEWSPAPERS—One cent each to any part of the U. S., prepaid by stamps.

MAGAZINES.—*Transient Rates*—One cent for first three ounces. Every additional ounce, or fractional part of an ounce, one cent pre-paid by stamps.

To SUBSCRIBERS.—One half of the above rates, payable quarterly in advance.

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(CORRECTED APRIL 1, 1861.)

Entered according to Act of Congress, in the year 1860, by H. WILSON and JOHN F. TROW, in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 88 Allen is on the right-hand corner of Broome, hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome—hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

PHILIP ROLLHAUS'S

IMPROVED

Patent Cooking Ranges

EIGHT SIZES,

ADAPTED

For Private Families, Boarding-houses, Dining Saloons, and Hotels.

These Ranges have, for neatness, durability, and economy, not as yet been surpassed by any article of the kind. The external appearance of them is neat; are cast of the

BEST AMERICAN IRON;

the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.

References to persons who have them in use in any part of this and the neighboring cities, may be selected at the Salesroom,

COLUMBIA, - - - - - - -	**4,400**	"	"
ANGLIA, - - - - - - -	**4,400**	"	"
PRINCE ALBERT, (Screw,) - - -	**3,300**	"	"

One of the above Ships will leave New York or Boston alternately every Tuesday fortnight, for Galway, carrying the government mails, touching at St. Johns, N. F.

The Steamers of this Line have been constructed with the greatest care, under the supervision of the government, have water-tight compartments, and are unexcelled for comfort, safety, and speed by any Steamers afloat. They are commanded by able and experienced officers, and every exertion will be made to promote the comfort of passengers.

An experienced Surgeon attached to each Ship.

RATES OF PASSAGE.

And Four Sizes expressly for
FAMILY USE.
Salesroom, 242 Water St., N.Y.

An examination of Shepard's Superior Ranges will satisfy all that nothing is offered to equal them in style, economy, efficiency, or durability. Their economy is unquestionable. The cost of a Range will be amply repaid in the great saving of fuel. The superior Baking, Roasting, and other culinary operations, by their perfection alone, would also save much that is now wasted.

These Ranges are extra strong and durable, no weight of metal or expense has been spared to make them complete.

W. JACKSON & SON,

Late of the well-known Firm of W. & N. JACKSON & SONS,

This Cut represents a Heater to set into the Fire-place, designed for heating the Basement, Parlor, and Second Story. It occupies no more room than an ordinary Grate. Its superiority over others is manifested by its being composed entirely of cast iron, and flues so constructed as to entirely prevent choking. The air is received either from Basement or Cellar, and in passing through the various flues acquires a genial warmth, which is diffused throughout the rooms above at pleasure.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is *free from reproach* if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence; how much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneons thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Banks, it takes care of the depositor's money, and it virtually allows him interest upon his deposits; but it does more: what is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds* himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of support when every thing else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain;* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to

learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question it will be necessary to explain briefly the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed Companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends; which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company. He says: "Purely Mutual Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made three distributions of surplus funds, (1848, 1853, and 1858,) in *cash*, amounting to OVER $500,000. It now has an invested sum of $1,750,000, to pay losses, and a surplus of $600,000; so that it could reinsure for $1,200,000, and divide $600,000.

The New England Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums; and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1858 amounted to $335,000.

Its *standing* and *economy* are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e., in its ratio of value to liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to the community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

☞ The New England Life Insurance Company has deposited with the Comptroller of the State of New York $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of $1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!
